

What is claimed is:

- [Claim 1]** 1. A liquid crystal display (LCD) device, suitable for a vehicle, the LCD device capable of receiving and electrically connecting a replaceable media player, the LCD device comprising:
- a chassis, comprising a display;
 - a plurality of control buttons, disposed on one side surface of the chassis; and
 - a receiving space, for receiving a media player, comprising a connecting port on another side of the chassis for electrically connecting with a connector of the media player so that the LCD device is capable of receiving and electrically connecting different media players and playing data stored therein without any extra space occupation.
- [Claim 2]** 2. The LCD device according to claim 1, wherein the media player is a ROM.
- [Claim 3]** 3. The LCD device according to claim 1, wherein the media player is a card reader.
- [Claim 4]** 4. The LCD device according to claim 1, wherein the media player is a game player.
- [Claim 5]** 5. The LCD device according to claim 1, wherein the LCD device is installed in a front side inside the vehicle.
- [Claim 6]** 6. The LCD device according to claim 1, wherein the LCD device is installed on a seat of the vehicle.
- [Claim 7]** 7. The LCD device according to claim 1, wherein the LCD device is installed in an inner top surface of the vehicle.
